Primary Source Reference Guide

A primary source index mapping every credentialed and monitored data element to its authoritative issuing body — custodian name, source URL, access method, and refresh frequency.

CATEGORY · Provider Identity · Licensure · Board Certification · Sanctions & Exclusions · Provider Attestation

About this document: For each data element CertifyOS credentials or monitors, this guide identifies the authoritative issuing body from which data is obtained directly — not through a secondary aggregator or data vendor. Each entry documents the source name, custodian authority, access URL, retrieval method, and refresh cadence.
